### Don't Disregard a Cold

A neglected cold may develop into most serious sickness. The influenza and pneumonia that swept the country a year ago were preceded by an epidemic of colds. Foley's Honey and Tar will chase a cold if taken in time. It loosens phlegm and mucus, clears air passages, eases hoarseness, stops tickling throat. Jos. A. Mehringer.

They were married Thursday morning at 6 o'clock.

### Only a Cold

Are you ill? is often answered— "Oh it's only a cold," as if a cold was a matter of small consequence, but people are beginning to learn that a common cold is not a matter to be trifled with, that some of the most serious diseases start with a cold. As soon as the first indication of a cold appears take Chamberlain's Cough Remedy. Remember that the sooner you get rid of your cold the less the danger, and this remedy will help you to throw it off.

### CARD OF THANKS.

We desire to return our hearty thanks to our many friends and relatives for their kinship and help during the illness and death of my beloved wife and our mother. And to our many friends from Ireland. Their kindness shall never be forgotten.

Hon. Oliver W. Stewart of Chicago, formerly a member of the Illinois Legislature, will speak in Trinity Church, Sunday morning, December 7th, at 10:30 o'clock, under the auspices of the Flying Squadron Foundation of Indianapolis, Indiana, and in co-operation with all local people interested in better citizenship.

Mr. Stewart has recently returned from service overseas as a welfare worker, and will bring a burning message born of his experiences with our army men there.

The subject of his address will be, "Our Part In The World Crisis," and was inspired by his contact with our army in France and by his visit to the American Cemetery in that country which contains the graves of 22,000 boys who died in the fighting in the Argonne.

You are invited to attend this meeting. Admission free.

Come and bring some one with you.

Another reason the Japanese can get along with less earnings than Americans is that the Japs have had their present fashions in women's attire for 2,500 years. The white people of the world haven't that much sense.

### A Novelty in Fans

Small palm-leaf fans, all decked out with pretty ribbons are among the novelties that have been brought out for Christmas gifts. These fans are first painted any desired color and then varnished. Then the edge is bound with ribbon having a picot edge or with gold or silver braid or other fancy binding. A spray of millinery flowers is tied against the handle, on one side of the fan, and the handle wound with ribbon that is tied in a bow below the flowers. Or flowers may be painted on the fan or made with sealing wax, as in the fan pictured here. This sample is bound with silver braid and has a long tassel of silver tinsel besides a ribbon bow on the handle. It is pretty in turquoise blue, rose color red, etc., with ribbon and flowers in colors that harmonize, and is easy to make at home.

#### Deep Reasons for Gratitude.

The vastness of America's cause for rejoicing today cannot be reached even by the international outpouring, for never before have we had such colossal reason for thanksgiving in the liberation of some nations, the succor of others, and the release of our own highest impulses for free play. Since the days of the Nazarene no such words have been spoken, no such doctrine preached, as we hear from day to day at the close of humanity's tragedy. Our thanks are deep and loud sounding around the world.

by local applications, as they cannot reach the diseased portion of the ear. The e is on one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube.
